Why the BRITA® VIVREAU ViTap?

Trust the company with 50 years of experience in expert filtration, this legacy now extends beyond great-tasting premium quality water you can rely on.

Water filtration expert

- BRITA filtration technology delivers water with an incomparable taste and superior quality.
- The BRITA VIVREAU ViTap encompasses intelligent technology to ensure the filtration system is always reliable.
- State-of-the-art filtration technology reduces chlorine, limescale and other taste impairing substances such as lead and copper.
- Site specific water testing ensures optimal filters are used based on localised water conditions.
- Separate filters for cold water and hot water inputs.
- Global filtration expertise – all filters are designed and manufactured in Germany.

Stylish, multi-functional stand-alone design for installation away from the sink

- Integrated flush fitting drip tray included at no additional cost.
- Frees up valuable sink space.
- Promotes flexible office spaces, centre point for collaborative zones.
- Zero splash flow.
- Power saving technology to reduce power consumption.
- Easy to use LED touch control panel. Can be removed if required.
- All BRITA VIVREAU dispensers are designed and manufactured to the highest standard in Europe.

Dispensing options

- Five combinations of water dispensing options available.
- Meets peak demands without compromising temperature, taste or over-loading the chiller/boiler unit.
- High dispensing capacity - 60 Litres (240 cups) per hour.
- Simple and effective hot water safety features.

Service & maintenance experience

- The low-maintenance BRITA VIVREAU ViTap is the sensible choice for long term ROI, with refillable CO2 gas bottles and ongoing maintenance from BRITA experts.
- Tailored and flexible service packages including on-site installation and training.
- Supported by a nationwide service network which provides bi-annual filter replacement and sanitisation.
- Businesses can retain optimum performance and taste of their water source with the greatest peace of mind.

Sustainable choice

- Build a plastic free workspace and reduce your carbon footprint by eliminating single use plastic bottles.
- BRITA offers reusable designer glass bottles which you can customise with your company logo for branding purposes.

Progressive workspace

- Bring back the magic of the water cooler! By providing a functional communal space and personalised hydration with the BRITA VIVREAU ViTap at its core.
- Increase productivity and encourage moments of collaboration and connection between your employees throughout the day.

Our Partners

AIR NEW ZEALAND

QANTAS

We are currently in all Air New Zealand Koru Lounges and Qantas Business lounges across Australia and New Zealand.

The high volume of traffic going through these spaces daily helps to showcase how the systems deal with high capacity use, whilst providing high quality filtered water options.

Why BRITA®

50 YEARS
OF IDEAS

50 YEARS OF EXCELLENCE

With 50 years of experience in expert filtration, BRITA has become synonymous with great tasting water. As water filtration technology reaches new highs, BRITA remains at the forefront of the hydration revolution.

UNPARALLELED DRINKING EXPERIENCE

That beautiful BRITA taste shines through no matter how the water is served with chilled, still and sparkling water served along side hot from a tap. The BRITA VIVREAU ViTap has incomparable taste and quality that inspires people to keep coming back for more.

PREMIUM FILTRATION TECHNOLOGY

Engineered to the highest quality to deliver unparalleled taste and performance, the BRITA VIVREAU ViTap's German-designed filtration system uses state-of-the-art filtration technology to reduce chlorine, limescale and other taste-impairing substances such as lead and copper.

TAILORED SERVICE

BRITA's nationwide technical support team can manage installation, machine servicing, filter replacements & training. A dedicated customers services team is always just a phone call away.
